

It's

EASY

to make a child's day!

Most of us remember our first time riding a bike. The thrill of riding down neighborhood streets with friends and family looking on.

Unfortunately there are too many children with special needs who cannot ride a traditional bike and custom adaptive bikes cost families thousands of dollars.

For this reason, Friendship Circle created the Great Bike Giveaway, a campaign to help children with special needs receive an adaptive bike. If we get the most votes my child will win a very special bike!
